10. As you may know, Education Savings Accounts give families around six-thousand dollars, which is a portion of the money intended to support the education of their child. This money can be used to pay for tuition, tutoring, therapies, supplies, technology, and other educational experiences that are best suited for the needs of that child. Would you say you support or oppose implementing an Education Savings Account program in Wyoming?

16. I am going to read you two points of view about removing zip codes as the lines that decide which schools students should go to, and please tell me which one you agree with more...

(Some/Other) people say that removing zip codes as the lines that decide which students should go to allows for equal access to all public schools.

...while...

(Some/Other) people say that removing zip codes as the lines that decide which students should go to makes it impossible for students to go to the schools closest to them because there is not enough capacity to accommodate the demand.
